

Capital Fund Donation Information and Form

Today we are looking for support from our community to help carry on the tradition of this great game to our growing organization and young ball players. Our number one goal is to help our kids succeed with all the challenges they face, and we really need support from the local community we serve to help accomplish this. We would like to request that you join our efforts and help us build our future by becoming one of our many great sponsors.

The little league complex, located at the intersection of East 5th Avenue and North Penn Street, is currently the site of two fields. Every spring, summer and fall, 200 plus children ranging from ages 4 to 12 play baseball on these fields. Due to expansion of our league's enrollment and the number of teams, field space for practices and games are at a premium. It's a great problem that requires a great solution.

To that end, we are in the planning stages of construction for a third permanent field at our current location. As you may or may not be aware, there are many expenses involved in a construction project of this size. We have estimated a total budget of between \$125,000 to \$150,000 for a fully functional field. We make every effort to keep our registration fees as low as possible to ensure we offer a program affordable to all, leading us to look outward for the help we need. This Capital Fund Campaign and the funds associated will be put directly into building a baseball field that will be seen, used and enjoyed by generations to come. Now is the time for you to get involved from the start. Please find the donation option that best suits you or your business and contact the league with your interest.
